Office of Institutional Planning and Research

not for public distribution

The Office of Institutional Planning and Research has compiled this fourth issue of the DePaul University Fact File, 1982-86 for you and your office. It presents a wide array of statistics on student enrollment, demographic characteristics, profiles by major groups, financial aid, and other University statistics.

The topics covered in this issue have been expanded to include tables on university finances, grant activity, and faculty profiles. Most of the tables provide the reader with a five-year perspective, from 1982 to 1986, that illustrates major trends occurring over the last few years.

This publication has been designed for the readership of DePaul University. Each academic and administrative manager will receive a copy, as will the presidents of the three University Councils. In addition, many DePaul staff members will find this booklet a valuable source for answering information requests. We hope that you will share this publication with your office staff, but that you do not distribute the DePaul Fact File outside of the University.

Our objective, in compiling this databook, is to provide accurate, relevant, and timely information to the University community. However, the interpretation and judicious use of the information is the responsibility of the reader. Entailed in our booklet are statistics intended to answer questions of fact, but these must be combined with sound academic and professional judgment in planning and decision-making.

Finally, on behalf of our office, best wishes for the holiday season.
